

COLORADO CHARGE AHEAD COLORADO

blink

Get the Fastest Level 2 EV Charging Station for Free

The Mile High State is going the extra mile to incentivize local businesses to provide EV charging station infrastructure for the growing demand of electric vehicles in Colorado. With the help of Blink Charging and the Charge Ahead Colorado Rebate Program, you have the unique opportunity to install EV charging stations at your location for free, making your location an EV destination

The Program

- Blink will work with you to apply for the Colorado rebate
- Blink will provide the fastest Level 2 EV charging stations
- Blink will provide the Blink network, operational support, and maintenance for the equipment
- Blink will reimburse you the cost of electricity used by the charging stations

Grant Details

To help improve air quality and encourage the deployment of electric vehicles across the state, the Regional Air Quality Council (RAQC) and the Colorado Energy Office (CEO) partner to provide financial support for electric vehicles and electric vehicle charging stations through the Charge Ahead Colorado program.

- Any public or private entity is eligible to install Level 2 charging stations
- The rebate will cover 80% of the cost of installation of a dual-port Level 2 charging station, up to \$9,000

Hurry, this offer is only good for a limited time!
